

We thought you would find it useful to have a list of the Town Meeting and Election Day ballot voting details in the Tri-Town.

You might find it interesting to know that Old Rochester Regional High School students have taken interest in the civic process, as the Student Council organized a “Register to Vote” program in the school this year. They are taking interest and getting involved.

****As a service to parents with young children, babysitting services will be available at each Town Meeting, thanks to student and parent volunteers, in order for both parents to participate.****
